Dear Dr. Holzinger,

I have to apologize for writing to you in delay, but as you are probably aware, the months that followed the war were very difficult and we had to repair the damages and concentrate on the subsequences that the war itself brought on.

The war was difficult on all of us, and we had to worry about the life and existence of our residents and the children.

We received assistance in volunteers that came right after the war and helped repair the schools and kindergartens that were damaged. We did succeed to open up the school year with the entire country.

I wish to thank you personally of the wonderful wishes and solidarity that you and your residents of our sister city forwarded to us, it was deeply appreciated by all.

The delegation together with Mr. & Mrs. Haussmann to Kiriat Shmona was very successful and it warmed our hearts.

The gift that you sent for Kiriat Shmona, was outstanding, and I thank you for it, it will certainly be put for good use for the community, as for the tie I shall remember fondly our warm friendship every time

Again, I do hope to have you visit with us very soon and may I please extend my thanks to you and to all of all you have done and doing still for us here in Kiriat Shmona.

Please extend my best wishes and regards to all our friends in Memmingen.

With Deep appreciation and friendship,

Haim Barbivai,
Mayor of Kiriat Shmona, Israel
